VOLUME XXIII  
January—June 1961

No. 1

## EDITORIAL:

Stephen Hales, September 17, 1677—January 4, 1761. Howard B. Burchell... 1

## ORIGINAL ARTICLES:

Reoperation for Mitral Stenosis. A Discussion of Postoperative Deterioration and Methods of Improving Initial and Secondary Operation. Dwight E. Harken, Harrison Black, Warren J. Taylor, Wendell B. Thrower, and Laurence B. Ellis ..... 7

Raynaud's Disease with Sclerodactylia. A Follow-Up Study of Seventy-one Patients. Richard G. Farmer, Ray W. Gifford, Jr., and Edgar A. Hines, Jr. 13

Pulmonary Artery Banding. A Treatment for Infants with Intractable Cardiac Failure due to Interventricular Septal Defects. Harold M. Albert, Richard L. Fowler, Claude C. Craighead, Bertram A. Glass, and Mohammad Atik... 16

Precordial Scanning. Applications in the Detection of Left-to-Right Circulatory Shunts. William P. Cornell, Eugene Braunwald, and Andrew G. Morrow 21

An Electrocardiographic Pattern Associated with Mitral Valve Deformity in Marfan's Syndrome. Dorrance Bowers..... 30

Separated Renal Functions in Patients with Renal Arterial Disease, Pyelonephritis, and Essential Hypertension. Harriet P. Dustan, Eugene F. Pou-tasse, A. C. Coreoran, and Irvine H. Page..... 34

Ruptured Mitral Chordae Tendineae. Philip J. Osmundson, John A. Callahan, and Jesse E. Edwards..... 42

Myocardial Blood Flow and Oxygen Consumption during Postprandial Lipemia and Heparin-Induced Lipolysis. Timothy J. Regan, Kenan Binak, Seymour Gordon, Valentino DeFazio, and Harper K. Hellemis..... 55

An Appraisal of the Double Indicator-Dilution Method for the Estimation of Mitral Regurgitation in Human Subjects. William S. Wilson, Ralph L. Brandt, Richard D. Judge, Joe D. Morris, and Mary E. Clifford..... 64

Relationship between the Electrocardiogram and the Position of the Heart as Determined by Biplane Angiocardigraphy. Warren G. Guntheroth, Carl-Olof Ovenfors, and Danae Ikkos..... 69

Total Anomalous Pulmonary Venous Drainage at Cardiac Level. Angiocardio-graphic Differentiation. R. D. Rowe, I. H. Glass, and J. D. Keith..... 77

Intracardiac Knotting of the Catheter during Right Heart Catheterization. John F. Skinner and John T. Burroughs..... 81

Origin of Right Pulmonary Artery from Ascending Aorta. C. A. Wagenvoort, Henry N. Neufeld, Richard F. Birge, John A. Caffrey, and Jesse E. Edwards 84

Cor Triloculare Biatritum. Survival to Adult Life. William N. Chambers, Modestino G. Crisciello, and Fairfield Goodale..... 91

## SYMPOSIUM ON CORONARY HEART DISEASE:

Measurements of Enzymes in the Diagnosis of Acute Myocardial Infarction. Milton W. Hamolsky and Nathan O. Kaplan..... 102

Surgical Treatment of Angina Pectoris. Michael E. De Bakey and Walter S. Henly ..... 111

**CLINICAL PROGRESS:**

- Management of the Cardiac Patient Requiring Major Surgery. Stanford Wessler and Herrman L. Blumgart..... 121

**SPECIAL REPORT:**

- Dietary Fat and Its Relation to Heart Attacks and Strokes. A Report by the Central Committee for Medical and Community Program of the American Heart Association ..... 133

**BOOKS REVIEWED** ..... 137**BOOKS RECEIVED** ..... 140**ABSTRACTS** ..... 141**NEWS FROM THE AMERICAN HEART ASSOCIATION** ..... 159**CONTRIBUTORS TO THIS ISSUE** ..... 162

## No. 2

**EDITORIAL:**

- Thromboangiitis Obliterans: Fact or Fancy. Stanford Wessler..... 165

**ORIGINAL ARTICLES:**

- Essential Hypertension and Aldosterone. Eleanor H. Venning, Inge Dyrenfurth, John B. Dossetor, and John C. Beck..... 168
- Tomographic Evaluation of Hemodynamic Changes in Mitral Stenosis with a Statistical Note on Normal Tomographic Findings. M. J. Dulfano and H. Adler ..... 177
- A Hemodynamic Technic for the Detection of Hypertrophic Subaortic Stenosis. Edwin C. Brockenbrough, Eugene Braunwald, and Andrew G. Morrow.... 189
- Ballistocardiographic Study in Severe Anemia. O. P. Tandon and B. C. Katiyar..... 195
- Effects of Reduced Glomerular Filtration Rate on Responsiveness to Chlorothiazide and Mercurial Diuretics. F. C. Reubi and P. T. Cottier..... 200
- The Antihypertensive Actions of Benzothiadiazines. Bertram M. Winer.... 211
- Biochemical Studies in Full-Blooded Navajo Indians. II. Lipids and Lipoproteins. Robert J. Kositchek, Moses Wurm, and Reuben Straus..... 219
- The Electrocardiogram in Ventricular Septal Defect. Dennis J. Vince and John D. Keith ..... 225
- Effect of Breathing Oxygen on Pulmonary Artery Pressure and Pulmonary Vascular Resistance in Patients with Ventricular Septal Defect. Hiram W. Marshall, H. J. C. Swan, Howard B. Burchell, and Earl H. Wood..... 241
- The Association of Complete Heart Block and Adams-Stokes Syndrome in Two Cases of Mobitz Type of Block. Case Reports. Jerome G. Kaufman, Fred W. Wachtel, Edwin Rothfield, and Arthur Bernstein..... 253
- Acute Constrictive Epicarditis Following Infectious Mononucleosis. Case Report. D. R. Wilson, S. C. Lenkei, and J. F. Paterson..... 257
- Glycogen-Storage Disease. Report of a Case with Generalized Glycogenosis and Review of the Literature. Otto F. Muller, Samuel Bellet, and Ali Ertrugrul ..... 261
- An Angiocardiographic Sign of Aortic Regurgitation. Its Utilization for the Measurement of Regurgitant Flow. Rene A. Arcilla, Magnus H. Agustsson, Zwi Steiger, and Benjamin M. Gasul..... 269
- A Simplified Technic for the Detection of Patent Ductus Arteriosus and of Other Left-to-Right Shunts Originating from the Aorta. Eugene Braunwald and William P. Cornell..... 279

# CONTENTS OF VOLUME XXIII

v

## SPECIAL ARTICLE:

- William Harvey and His Contributions. Frederick G. Kilgour..... 286

## CLINICAL PROGRESS:

- The Clinical Value of Vectorcardiography. Franklin D. Johnston..... 297

## ABSTRACTS

- ..... 304

## NEWS FROM THE AMERICAN HEART ASSOCIATION

320

## CONTRIBUTORS TO THIS ISSUE

323

No. 3

## EDITORIAL:

- Cardiogenic Shock in Acute Myocardial Infarction. Charles K. Friedberg.... 325

## ORIGINAL ARTICLES:

- Atrial Infarction of the Heart. Chi Kong Liu, Gilbert Greenspan, and Ronald T. Piccirillo ..... 331
- Congenital Mitral Insufficiency. Norman S. Talner, Aaron M. Stern, and Herbert E. Sloan..... 339
- Aneurysms of the Previously Ligated Patent Ductus Arteriosus. Richard S. Ross, Frederick P. Feder, and Frank C. Spencer..... 350
- Acute Hemorrhage and Necrosis of the Intestines Associated with Digitalization. Peter C. Gazes, Charles R. Holmes, Vince Moseley, and H. Rawling Pratt-Thomas ..... 358
- Myocardial Response to Cigarette Smoking in Normal Subjects and Patients with Coronary Disease. T. J. Regan, M. J. Frank, J. F. McGinty, E. Zobl, H. K. Hellem, and R. J. Bing..... 365
- The Synthesis of Phospholipids in Human Atheromatous Lesions. D. B. Zilversmit, Esther L. McCandless, Paul H. Jordan, Jr., Walter S. Henly, and R. F. Ackerman..... 370
- Studies on Digitalis. III. The Influence of Triiodothyronine on Digitalis Requirements. Robert L. Frye and Eugene Braunwald..... 376
- Premature Ventricular Depolarization. Cesar A. Caceres..... 383
- Estimation of Flow Through Bronchial-Pulmonary Vascular Anastomoses with Use of T-1824 Dye. H. W. Fritts, Jr., P. Harris, C. A. Chidsey III, R. H. Clauss, and A. Cournand..... 390
- Origin of Both Great Vessels from the Right Ventricle. I. Without Pulmonary Stenosis. Henry N. Neufeld, James W. DuShane, Earl H. Wood, John W. Kirklin, and Jesse E. Edwards..... 399
- Further Studies on a Theory of the Ballistocardiogram. Abraham Noordergraaf ..... 413
- Physical Aspects of the "Direct" Recording of Body Displacement, Velocity, and Acceleration by Shin-Bar Ballistocardiographs. Abraham Noordergraaf ..... 426
- Ballistocardiographic Evaluation of the Cardiovascular Aging Process. Arthur J. Moss..... 434

## SPECIAL ARTICLE:

- Some Physiopathologic Regularities in the Process of Dying and Resuscitation. V. A. Negovsky ..... 452

## CLINICAL PROGRESS:

- Recent Trends in Therapy of Cerebral Vascular Disease. Sigmund N. Groch and Irving S. Wright..... 458

## ABSTRACTS

- ..... 466

## CONTRIBUTORS TO THIS ISSUE

483

**EDITORIAL:**

- The Congenital Bicuspid Aortic Valve.** Jesse E. Edwards..... 485

**ORIGINAL ARTICLES:**

- Endocarditis Complicating Open-Heart Surgery.** Jere W. Lord, Jr., Anthony M. Imparato, Alvin Hackel, and Eugenie F. Doyle..... 489
- Primary Myocardial Disease.** Noble O. Fowler, Mosche Gueron, and David T. Rowlands, Jr. .... 498
- Aortic Stenosis. Correlations between Pressure Gradient and Left Ventricular Angiocardiography.** Viking Olov Björk, Ingemar Cullhed, and Herman Lodin ..... 509
- The Value of Quinidine in the Prevention of Atrial Fibrillation after Mitral Valvuloplasty.** Harrison Black, Bernard Lown, and Anthony F. Bartholomay ..... 519
- Long-Term Results of Aortic-Pulmonary Anastomosis for Tetralogy of Fallot. An Analysis of the First 100 Cases Eleven to Thirteen Years after Operation.** Milton H. Paul, Robert A. Miller, and Willis J. Potts..... 525
- Clinical Evaluation of Intravenous Abdominal Aortography and Peripheral Arteriography.** Israel Steinberg..... 534
- The Frequency of Aschoff Bodies in Atrial Appendages of Patients with Mitral Stenosis. Relationship to Age, Atrial Thrombosis, and Season.** B. H. Ruebner and J. K. Boitnott..... 550
- Sodium from Drinking Water as an Unsuspected Cause of Cardiac Decompensation.** George B. Elliott and Elizabeth A. Alexander..... 562
- Effect of Exercise on Electrocardiograms of Patients with Low Serum Potassium.** A. J. Georgopoulos, W. L. Proudfit, and Irvine H. Page..... 567
- Plasma Heparin Levels. Correlation with Serum Cholesterol and Low-Density Lipoproteins.** H. Engelberg..... 573
- Plasma Heparin Levels in Normal Man.** H. Engelberg..... 578
- The Mechanical Consequences of Anomalous Atrioventricular Excitation (WPW Syndrome).** Harold W. March, Arthur Selzer, and Herbert N. Hultgren..... 582
- Aortic Pressures during Closed-Chest Cardiac Massage.** Victor Gurewich, Arthur A. Sasahara, James S. Quinn, Catherine J. Pepper, and David Littmann..... 593
- Isolated Incompetence of the Pulmonic Valve.** Ben O. Price..... 596
- Origin of Both Great Vessels from the Right Ventricle. II. With Pulmonary Stenosis.** Henry N. Neufeld, James W. DuShane, and Jesse E. Edwards.... 603

**CLINICAL PROGRESS:**

- Cardiac Amyloidosis.** Robert E. Eliot, Hugh J. McGee, and S. Gilbert Blount, Jr..... 613

**ABSTRACTS** ..... 623**NEWS FROM THE AMERICAN HEART ASSOCIATION** ..... 635**CONTRIBUTORS TO THIS ISSUE** ..... 643**EDITORIAL:**

- Quantitative Morphology—A New Approach to Cardiac Pathology.** Robert P. Grant ..... 645

**ORIGINAL ARTICLES:**

- Emotional Factors in Coronary Heart Disease.** Howard B. Sprague..... 648
- "Nonspecific" ST and T-Wave Changes.** Charles K. Friedberg and Albert Zager ..... 655

<b>Aortic Valve Perforation in Bacterial Endocarditis.</b> Ralph Tompsett and Glenn D. Lubash .....	662
<b>Atrial Septal Defect in the Aged.</b> Manual Rodstein, Frederic D. Zeman, and Isadore E. Gerber .....	665
<b>Relationship between Arterial Pressure and Negative U Waves in Electrocardiograms.</b> A. J. Georgopoulos, W. L. Proudfit, and Irvine H. Page.....	675
<b>Effects of Erythrol Tetranitrate and Amotriphene on Exercise Tolerance Tests in Angina Pectoris.</b> Arthur Ruskin .....	681
<b>Isolated Ventricular Septal Defect of the Persistent Common Atrioventricular Canal Type.</b> Henry N. Neufeld, Jack L. Titus, James W. DuShane, Howard B. Burchell, and Jesse E. Edwards.....	685
<b>The Prognosis of Essential Hypertension Treated Conservatively.</b> Maurice Sokolow and Dorothee Perloff .....	697
<b>Twenty-Year Studies with the Ballistocardiograph. The Relation between the Amplitude of the First Record of "Healthy" Adults and Eventual Mortality and Morbidity from Heart Disease.</b> Isaac Starr and Francis C. Wood.....	714
<b>The Pulmonary Arterial Tree in Atrial Septal Defect. A Quantitative Study of Anatomic Features in Fetuses, Infants, and Children.</b> C. A. Wagenvoort, Henry N. Neufeld, James W. DuShane, and Jesse E. Edwards.....	733
<b>The Pulmonary Arterial Tree in Ventricular Septal Defect. A Quantitative Study of Anatomic Features in Fetuses, Infants, and Children.</b> C. A. Wagenvoort, Henry N. Neufeld, James W. DuShane, and Jesse E. Edwards..	740

# CIRCULATION

VOLUME XXIII

JANUARY-JUNE, 1961

## SUBJECT INDEX

(Page numbers in *italics* refer to abstracts)

### A

- Acetylcholine synthesis**, atrial and enzyme activity, *318*
- Acetylsalicylic acid**, in rheumatic fever, *796*
- Acetyl-strophanthidin**, affecting myocardium, *792*
- Acidosis**, postoperative, *319*
- ACTH**, and estrogen excretion after myocardial infarction, *624*
- Adrenals**, and lipid response to epinephrine, *473*
- Aging**
  - atrial septal defect in, 665-673
  - and ballistocardiography, 434-450
  - lipid-bound glutamic acid in atherosclerosis of, *473*
  - postoperative coagulation in, *475*
- Alarmino**, producing hypertension, *631*
- Aldolase**, in myocardial infarction, 108
- Aldosterone**, and hypertension, 168-175
- Altitudes**
  - and patent ductus arteriosus, *954*
  - and valvular heart disease, *799*
- American Heart Association**
  - affiliates of Association, 479
  - Arteriosclerosis Council Meeting, 320, 479, 635, 800
  - awards
    - from Life Insurance Fund, 961
    - of Merit, 321
    - recipients in 1961, 635-642
  - Career Investigator named, 959
  - Diagnostic Radiology Society, 156
  - Epidemiology Conference Proceedings, 155
  - European Cardiology Proceedings, 481
  - films
    - on congestive heart failure, 155
    - scripts available for, 156
  - meetings calendar, 961-962
  - negotiations with American College of Cardiology, 801
  - officers elected
    - to Councils, 321
    - to Inter-American Cardiology Society, 480
  - Pediatric Cardiology Sub-Board, 480
  - professional education, future plans for, 960
  - professional materials listed, 156
  - publications
    - Cardiovascular Agents Handbook, 481
    - on diuretics, 321
    - Heart Bulletin, 480
    - Innocent Heart Murmurs, 800
    - Modern Concepts of Cardiovascular Disease, 480
    - on smoking, 321
  - research funds, need for, 480
  - research support applications, 959
  - scientific sessions
    - abstracts deadline, 479
    - programs on clinical cardiology, 960

- subscription renewals, 320
- Vascular Systems Seminar, 801
- Work Evaluation Units Conference Proceedings, 156
- World Cardiology Congress, 635
- Aminocaproic acid metabolism**, and fibrinolysis, *953*
- Amotriphene**, in angina pectoris, 681-684
- Amyloidosis**, cardiac, *137*, 613-619
- Anastomosis**
  - aortic-pulmonary, for tetralogy of Fallot, 525-533
  - bronchial-pulmonary, blood flow through, 390-397
  - carotid basilar, *145*
  - in pulmonary venous drainage anomalies, 912
- Anemia**
  - ballistocardiography in, 195-199
  - cardiac output in, *313*
  - exercise in, *794*
- Anesthesia**, for open-heart surgery, *797*
- Aneurysm**
  - of abdominal aorta, *472*
  - ruptured, *142*, *958*
  - ruptured, *142*
  - surgery in, *144*
  - of ligated ductus arteriosus, 350-357
- Angina**
  - intestinal, *471*
  - pectoris, *626*
  - and blood pressure, arterial, 892-899
  - and carotid sinus pressure 775-778
  - cavodil in, *150*
  - drugs affecting exercise tests in, 681-684
  - pentaerythritol tetranitrate therapy, *626*
  - surgery in, 111-118
- Angiocardiography**
  - in aortic regurgitation, 269-278
  - in Bernheim syndrome, *468*
  - biplane, 69-76
  - coronary venous injection under high pressure, *317*
  - on intracavitary cardiac masses, *316*
  - left ventricular, 509-517
  - in Marfan syndrome, *318*
  - new media in, *318*
  - in pulmonary venous drainage anomaly, 77-80
- Angiography**, *317*
  - cerebral, *317*, *318*
  - coronary artery in, *796*
- Angiotensin metabolism**, 754-757
- Annulus**, mitral, valvuloplasty of, *140*
- Anoxia**
  - cardiac arrest from, *466*
  - myocardial, *313*
  - and ventricular fibrillation, *634*
- Anticoagulants**
  - in cerebrovascular accidents, *476*
  - dilithium sequestrene, *477*

**Anxiety**, cardiovascular indications of, 901-906

**Aorta**

- abdominal, aneurysm of, 472
  - ruptured, 142, 958
  - surgery in, 144
- anastomosed to pulmonary artery, in Fallot's tetralogy, 525-533
- angiogram, coronary artery in, 796
- ascending, as origin of right pulmonary artery, 84-90
- cholesterol deposition in, 146
- coarctation in infants, 956
- lipids in intima and media of, 949
- occlusive disease of, 143
  - surgery in, 470
- pressures in closed-chest cardiac massage, 593-595
- origin from right ventricle, 399-412, 602-612
- tumor producing hypertension, 631

**Aortic sinuses**, dilatation in Marfan syndrome, 318

**Aortic valve**

- bicuspid, congenital, 485-488, 954
- commissurotomy, 469
- insufficiency, 140
  - left ventricular pressure in, 469
- murmurs, systolic, 141
- perforation in endocarditis, 663-664
- regurgitation, angiocardigram in, 269-278
- stenosis, 823-835
  - See also Stenosis, aortic

**Aortography**

- abdominal intravenous, 318, 534-549
- retrograde
  - in left-to-right shunts, 279-285
  - measuring regurgitant flow, 269-278

**Arrhythmias**

- and carotid sinus pressure, 772-775
- mechanism of, 634
- ventricular, pressure changes in, 314

**Arterenol**. See *Epinephrine*

**Arteries**

- blood pressure in, and angina pectoris, 892-899
- calcific arteriopathy of infants, 799
- collateral, occlusions affecting, 142, 471
- embolectomy, late, 143
- hydrogen ion concentration in blood, 146
- occlusive disease, surgery in, 470
  - See also Occlusive disease
- oscillometric circulatory norms, 145
- oxygen saturation in congenital cardiac anomalies, 148
  - See also specific arteries

**Arteriography**

- coronary, 316, 318
- peripheral, intravenous, 318, 534-549
- visceral, selective, 796

**Arteriovenous fistulas**, peripheral, 142

**Aschoff bodies**, with mitral stenosis, 550-559

**Atherosclerosis**

- cholesterol levels in, 808, 847-851, 948-950
  - See also Cholesterol
- coronary
  - linetol in, 949
  - in rats exposed to cold, 949
- epidemiology of, 805
- experimental, lecithin in treatment of, 949
- insulin affecting, 950
- lipid-bound glutamic acid in, 473

- nutritional factors in, 950
- phospholipid synthesis in, 370-375
- risk of, 805-811
- studies with monks, 472
- systolic aortic murmurs with, 141

**Atrioventricular conditions**

- block, 920-924
- canal
  - common persistent, 477
  - type of ventricular septal defect, 685-695
- conduction system, peripheral distribution of, 634
- excitation, anomalous, 582-592
- node, impulses propagated through, 311

**Atrium**

- acetylcholine synthesis, and enzyme activity, 313
- appendages, in mitral stenosis, 550-559
- fibrillation
  - in mitral stenosis, 957
  - quinidine in, 791
  - with no heart disease, 468
  - after surgery, 519-523
- flutter, ventricular response with, 920-924
- infarction, 331-337
- myxoma of, 138, 798
- septal defect
  - in aged, 665-673
  - electrocardiography in, 149
  - pulmonary arterial tree in, 733-739
  - and pulmonary venous drainage anomalies, 912
  - surgery in, 466

**Auscultation**. See *Heart, sounds; Phonocardiography*

**B**

**Ballistocardiography**, 413-424

- in anemia, 195-199
- and cardiovascular aging, 434-450
- in coronary heart disease, 154
- shin-bar method, 426-433
- twenty-year studies with, 714-732

**Banding of pulmonary artery**, 16-20

**Basilar artery**

- anastomoses with carotid artery, 145
- anomalous communication to vertebral artery, 137

**Beer**, affecting fibrinolysis, 951

**Benzothiadiazines**, 211-217, 309, 790

**Bernheim syndrome**, 468

**Bicuspid aortic valve**, congenital, 485-488

**Biliary tract disease**, and mitral stenosis, 469

**Blood**, arterial, hydrogen ion concentration in, 146

**Blood cells**, axial movements of, 311

See also *specific cells*

**Blood donors**, fainting in, 901-906

**Blood flow**

- bronchial arterial, 792
- in bronchial-pulmonary anastomoses, 390-397
- myocardial, and lipemia, 55-62
- renal, epinephrine affecting, 315

**Blood pressure**

- and angiotensin metabolism, 754-757
- arterial, and angina pectoris, 892-899
- hypertension
  - Alarmino producing, 631
  - and angina pectoris, 892-899
  - children of hypertensive parents, 306

- chlorothiazide in, 632
- essential
  - and aldosterone, 168-175
  - prognosis of, 697-713
  - renal function in, 34-41
  - and renin content of kidneys, 305
- hemodynamics of, 146
- hydralazine in, 630
- malignant
  - from aortic tumor, 631
  - and hypokalemia, 305
- mecamylamine in, intravenous, 631
- mesenteric arteries in, 308
- and migraine, 307
- nephrectomy in, 307
- pulmonary, atrial septal defect with, 466
- renal, 146, 306
  - ureteral catheterization in, 630
- renal function in, 34-41, 305, 632
- renoprival, renal protection against, 795
- syrosingopine in, 630
- vascular lesions in, hydralazine preventing, 630
- hypotensive agents, 307
  - benzothiadiazines, 211-217
  - bretylium tosylate, 630, 631
  - and negative U waves in electrocardiograms, 675-680
  - of newborn infants, 153
  - and transmembrane cationic gradient, 145
  - venous, in heart failure, 478
  - Welsh studies of, 306
- Blood vessels, 957-958**
  - cerebral disease, therapy of, 458-463
  - clotting, 146
  - healing of wounds in, 663
  - hydralazine preventing lesions in, 630
  - resistance, pulmonary, oxygen breathing affecting, 241-251
- Blood volume, in polycythemia, 749-753**
- Book reviews**
  - Acute Cardiac Pulmonary Edema (*Wassermann*), 136
  - Atrial Septal Defect (*Davidson*), 943
  - Bedside Medicine (*Snapper*), 942
  - Bleeding Syndromes—A Clinical Manual (*Ratnoff*), 946
  - Cardiac Emergencies and Related Disorders (*Levine*), 943
  - Cardiology: An Encyclopedia of the Cardiovascular System (*Luisada, ed.*), 134
  - Electrocardiographic Technique (*Schnitzer*), 135
  - Grundriss und Atlas der Elektrokardiographie (*Zuckermann*), 134
  - The Heart in Industry (*Warsaw*), 943
  - Introduction to a Submolecular Biology (*Szent-Gyorgyi*), 942
  - Leukaemia (*Hayhoe*), 945
  - Oxymetrie (*Kramer*), 942
  - Pathology of the Heart (*Gould, ed.*), 135
  - Valvular Disease of the Heart in Old Age (*Bedford & Caird*), 945
- Books received, 140, 947**
- Bretylium tosylate, hypotensive effects of, 630, 631**
- Bronchial arterial blood flow, 792**
- Bronchial-pulmonary anastomoses, blood flow through, 390-397**

*Circulation, Volume XXIII, June 1961*

## C

- Calciferol-induced vascular injuries, 633**
- Calcific arteriopathy of infants, 799**
- Cardinal vein occlusion, in pulmonary venous drainage anomalies, 913**
- Cardiografín, in angiocardiology, 318**
- Cardiography, ultrasonic, 628**
- Cardiovascular conditions. See also Blood vessels; Heart aging, and ballistocardiography, 434-450**
  - effects of histamine and potassium, 312
  - effects of Warfarin, 147
  - Framingham study of diseases, 145
- Carotid artery**
  - anastomoses with basilar artery, 145
  - occlusion of, 144
    - bedside diagnosis of, 958
    - surgery in, 796
- Carotid sinus**
  - stimulation, clinical value of, 766-789
  - syndrome, 782-785
- Catecholamines**
  - and circulatory regulation, 794
  - effects similar to coronary ligation, 625
- Catheterization, cardiac**
  - coronary vessels, 310
  - dye dilution curves with, 627
  - left heart, 470, 823-835
    - accidents during, 154
    - percutaneous retrograde, 823-825
  - and premature ventricular depolarization, 383-388
  - in pulmonary venous drainage anomalies, 909-910
  - right heart, knotting of catheter in, 81-83
- Catheterization, ureteral, in renal hypertension, 630**
- Cavodil, in angina pectoris, 150**
- Cells, axial movements of, 311**
  - See also specific cells
- Cerebral arteries**
  - angiography, 317
  - insufficiency, diagnosis of, 472
  - intimal proliferation in, 308
- Cerebrovascular disease, therapy in, 458-463, 476**
- Chagas myocarditis, vectorecardiogram in, 152**
- Children**
  - gastrointestinal bleeding after surgery, 797
  - of hypertensive parents, 306
  - infancy
    - blood pressure of, 153
    - calcific arteriopathy of, 799
    - coarctation of aorta in, 956
    - digitalis therapy in, 310
    - heart failure in, 148
    - paroxysmal tachycardia of newborn, 311
    - phonocardiography and auscultation in, 791
    - pulmonic stenosis in, 956
  - open-heart surgery in, 798
  - vectorecardiogram in, 629
- Chlorothiazide**
  - electrolyte excretion after, 790
  - hypotensive action of, 211-217
  - renal disease affecting, 200-210
  - in toxemia of pregnancy and hypertension, 632

**Cholesterol**

- and arteriosclerotic heart disease, 808, 847-851
- deposition of, 146, 473
- diet affecting, 474
- increased, and ballistocardiography, 154
- and milk fat replaced by soybean oil, 474
- and plasma heparin levels, 573-577
- removal from reticuloendothelial cells, 472
- treatment of hypercholesteremia, 146

**Chordae tendineae**, rupture of, 42-53**Chromatography**, in enzyme studies, 103**Cinecardiography**, in ventricular septal defects, small, 886**Coagulation**, 950-954

- anticoagulants in cerebrovascular accidents, 476
- automatic clotter-timer in coronary heart disease, 146
- dilithium sequestrene as anticoagulant, 477
- factor VII and heparin in thrombosis, 476
- heparin. *See* Heparin
- intravascular clotting, 146
- micromethod for prothrombin time, 476
- phenindione failing to prevent clotting, 951
- platelet serotonin, 475
- platelet substitute, 476
- postoperative, in aged, 475
- prednisone affecting, 952
- pulmonary embolism prophylaxis, 475
- in serum-induced thrombosis, 477
- in sleep, 952
- tests of, 952, 954
- thrombolysis with fibrinolysin, 474
- Waterhouse-Friderichsen syndrome from dicumarol, 475

**Coarctation of aorta**, in infants, 956**Cold exposure**, and coronary atherosclerosis, 949**Collateral vessels**, occlusions affecting, 142, 471**Colorimetry**, in enzyme studies, 103**Commissurotomy**

- aortic, 469
- mitral
  - postoperative results, 138
  - reoperation, 7-12

**Conduction**

- atrioventricular, peripheral distribution of, 634
- peripheral arterial, 312
- tissue of heart, 307, 308

**Congenital anomalies**, 954-956

- aortic stenosis, 319
- arterial oxygen saturation in, 148
- bicuspid aortic valve, 485-488, 954
- blood volume in, 749-753
- cardiopathies and pregnancy, 955
- dextrocardia, 478
- ductus arteriosus patency. *See* Ductus arteriosus
- dye dilution curves in, 143
- heart disease and skeletal anomalies, 478
- insufficiency, mitral, 329-349
- of left circumflex coronary artery, 147
- mongolism, heart defects in, 148, 955
- persistent common atrioventricular canal, 477
- several malformations in one child, 955

**Contraction**, muscular, 146**Cor pulmonale**

- and obesity, 137
- vectrocardiography in, 867, 876

**Cor triloculare biatriatum**, 91-101**Coronary artery disease**

- angiography, 796
- arteriography, 316, 318
- ballistocardiography, 154
- and carotid sinus pressure, 778
- catheterization in, 310
- circulation disorders, 150
- coagulation and fibrinolysis in, 146
- emotional factors in, 648-654
- fistula with pulmonary artery, 759-761
- flow difficulties in myocardial infarction, 150
- hypertension with, 892-899
- left circumflex anomaly, congenital, 147
- ligation, effects similar to epinephrine doses, 625
- mortality in Sweden, 625
- occlusion, electrocardiogram in, 625
- risk of, 805-811
- sclerosis, 145, 153
- serum lipid changes in, 624
- serum polyunsaturated fatty acids in, 948
- serum triglyceride levels in, 623
- smoking affecting, 365-368
- symposium on, 102-118

**Coronary venous injection**, under high pressure, 317**Cranial vena cava occlusion**, 144**D****Death**. *See* Mortality**Dehydration**, electrocardiogram in, 628**Dehydrogenases**, in myocardial infarction, 106, 150, 151**Depolarization**, ventricular, 312, 383-388**Desoxycorticosterone**, antifibrillatory effect of, 309**Dextrocardia**, 478**Diastolic suction of ventricles**, 792**Dicumarol**, Waterhouse-Friderichsen syndrome from, 475**Diets**

- and atherosclerosis, 950
- high-fat meals in hemophilia, 951
- lowering serum lipids, 146
- as source of serum cholesterol, 474

**Digital circulation**, in Raynaud's disease, 144**Digitalis**

- and carotid sinus reflex, 781
- contraindication to 920-924
- effect on heart rate, 310
- in infants and children, 310
- and intestinal necrosis, 358-363
- tachycardia during therapy with, 790
- and triiodothyronine, 376-382

**Digoxin**

- action of, 310
- and galactose transport into myocardium, 653
- tolerance to, quinidine affecting, 791

**Dilithium sequestrene**, as anticoagulant, 477**Diuretics**

- benzothiadiazine, 211-217, 309, 790
- new agents, 309
- renal disease affecting, 200-210

**Donors of blood**, prediction of fainting in, 901-906**Ductus arteriosus**

- involution of, 146
- patency of
  - detection of, 279-285

after ligation, 350-357  
altitudes affecting, 954  
simulation of, 759-761

**Dye dilution curves.** See Indicator dilution studies

## E

**Ebstein's disease,** diagnosis of, 149

### Edema

myocardial, 793  
proteins in fluid, in heart failure, 478  
pulmonary  
carotid sinus stimulation in, 779  
in pulmonary embolism, 794  
serotonin causing, 315  
silicone antifoam agents in, 634

### Electrical cardiac arrest induction,

in ventricular tachycardia, 925-928

**Electrical endocardium,** for free left ventricular wall, 836-845

### Electrocardiography

in atrial septal defects, 149  
atrial wave widening in, 153  
in coronary artery occlusion, 625  
criteria for diagnosis, 877-879  
in dehydration, 628  
epinephrine affecting, 628  
in exercise, 627  
frontal and horizontal planes of QRS and AT, 152  
in head injuries, 853-859  
in hypokalemia, exercise affecting, 567-571  
in Marfan's syndrome, 30-33  
in myocardial infarction, 878  
negative U waves and arterial pressure, 675-680  
operative and postoperative, 152  
and position of heart, 69-76  
problems in, 626  
premature ventricular depolarization, 383-388  
in pulmonary emphysema, 153  
in pulmonary venous drainage anomalies, 909-910  
ST and T wave changes, 655-661  
after surgery for mitral regurgitation, 818  
in ventricular hypertrophy, 877, 878  
in ventricular premature beats, 151  
in ventricular septal defect, 225-239, 955

**Electrolytes,** excretion after benzothiadiazine diuretics, 790

**Embolectomy,** late arterial, 145

### Embolism

arterial  
and anterior tibial syndrome, 143  
peripheral, 143  
cerebral, therapy of, 462-463  
pulmonary, 146, 317  
lung edema in, 794  
prophylaxis of, 475  
vectorcardiography in, 867, 876

**Emotional factors in coronary heart disease,** 648-654

**Emphysema,** pulmonary, electrocardiogram in, 153

**Encephalomyocarditis virus,** 305

### Endocarditis

aortic valve perforation in, 662-664  
and chordae tendineae rupture, 42-48  
after open heart surgery, 489-497  
phagocytic reticuloendothelial cells in, 629  
staphylococcal, 304

**Endocardium,** electrical, for free left ventricular wall, 836-845

**Enterocolitis,** and digitalis, 358-363

### Enzymes

in atrial acetylcholine synthesis, 318  
in myocardial infarction, 102-110, 626

**Ephedrine,** in syncope from quinidine, 309

**Epicarditis after infectious mononucleosis,** 257-260

**Epidemiology,** of arteriosclerotic heart disease, 805

### Epinephrine and norepinephrine

effects on electrocardiogram, 628  
effects on renal blood flow, 315  
effects similar to coronary ligation, 625  
heart rate in infusion of, drugs affecting, 310  
lipid responses to, adrenals affecting, 473  
in myocardial infarction, 624  
pathologic changes from, 633

**Erythrol tetranitrate,** in angina pectoris, 681-684

**Erythropoietic function in heart failure,** 623

**Ethylene diamine tetraacetic acid (EDTA),**  
in occlusive disease, 948

### Exercise

in anemia, 794  
cardiac glycogen fractions after, 311  
electrocardiogram in, 627  
and hypokalemia, 567-571  
tests in angina pectoris, drugs affecting, 681-684

## F

**Factor VII and heparin in thrombosis,** 476

### Fainting

in blood donors, 901-906  
from quinidine, 309

**Falot's tetralogy,** aortic-pulmonary anastomosis in, 525-533

### Familial conditions

cardiomegaly, 468, 799  
heart disease with skeletal malformations, 478  
muscular subaortic stenosis, 833-834

**Fat,** synthetic, effects of, 475

### Fatty acids

linetol in atherosclerosis, coronary, 949  
myocardial metabolism of, 632  
polyunsaturated, in coronary heart disease, 948

### Femoral

artery  
dilatation, and peripheral-conducting mechanism, 312  
occlusion, surgery in, 470  
bypass grafts, 472  
vein ligation, superficial, 471

**Fever,** with abdominal aneurysms, 472

### Fibrillation

agents affecting, 309  
atrial  
in mitral stenosis, 957  
postoperative, 519-523  
with no heart disease, 468  
quinidine in, 791  
ventricular, 314  
and anoxia, 634

### Fibrinolysin

in myocardial infarction, 624

**Fibrinolysin (Con't)**

- and thrombolysis, 474
- in thrombotic diseases, 951

**Fibrinolysis**

- and aminocaproic acid metabolism, 953
- beer affecting, 951
- in coronary heart disease, 146
- and lipemia, 951

**Fibrosis, and cardiac pulmonary hemosiderosis, 140****Fistula**

- coronary-pulmonary artery, 759-761
- peripheral arteriovenous, 142

**Flow**

- of blood. *See* Blood flow
- of fluids through narrow tube, 311

**Fluids**

- in edema. *See* Edema
- flow through narrow tube, 311

**Flumethiazide, electrolyte excretion after, 790****Fluorometry, in enzyme studies, 103****Flutter, atrial, ventricular response with, 920-924****Framingham study of cardiovascular diseases, 145****G****Galactose transport, into myocardium, 633****Ganglionic blocking**

- effects on plasma volume, 305
- effects on venous pressure in heart failure, 478

**Gastrointestinal bleeding, after surgery in children, 797**

*See also* Intestinal conditions

**Glomerular filtration rate, reduced, 200-210****Glutamic acid, lipid-bound, in atherosclerosis, 473****Glycogen**

- cardiac fractions after exercise, 311
- storage disease 261-267

**Gonadotropin, chorionic, and estrogen excretion after myocardial infarction, 624****Grafts, femoral bypass, 472****H****Hales, Stephen, 1-6****Harvey, William, 286-296****Head injuries, electrocardiography in, 853-859****Heart**

- amyloidosis of, 137, 613-619
- arrest
  - anoxic, 466
  - after coronary thrombosis, massage for, 151
  - electrical, in ventricular tachycardia, 925-928
- block
  - atrioventricular, 920-924
  - bundle-branch, and carotid sinus pressure, 780
  - Mobitz type, 253-256
  - prevention in surgery of ventricular septal defects, 467
- cardiomegaly
  - familial, 468, 799
  - in mitral regurgitation, 818
- conduction tissue
  - iodine destroying, 308
  - lesions of, 307

**congenital defects**

- arterial oxygen saturation in, 148
- blood volume in, 749-753
- in mongolism, 148, 955
- and pregnancy, 955
- dextrocardia, 478
- epicarditis after mononucleosis, 257-260
- failure
  - erythropoietic function in, 623
  - in infancy, 148
  - and proteins of serum or edema fluid, 478
  - and sodium content of drinking water, 562-566
  - venous pressure in, 478
- fine structure of turtle heart, 307
- glycogen fractions after exercise, 311
- hypertrophy, idiopathic, 629
- ischemic disease, diagnosis of, 149
- kyphoscoliosis, cardiorespiratory failure in, 146
- massage
  - closed chest, 593-595
  - open chest, 151
- morphology, quantitative, 645-647
- muscle. *See* Myocardium
- myxomas, 138, 798, 929-938
- output
  - ear oximeter measurements, 627
  - idiopathic high state, 468
  - lanatoside-C affecting, 793
  - and peripheral runoff, 313
  - in polycythemia and anemia, 313
- pituitary hormones affecting, 632
- position of, and electrocardiogram, 69-76
- peripheral cardiomyopathy, 138
- rate, drugs affecting, 310
- rheumatic carditis, treatment and prevention of, 316
- sounds
  - in infancy, 791
  - ventricular premature beats, 151
  - in ventricular septal defects, small, 886-891
- ultrasonic cardiography, 628

**Hemoglobin concentration, in morbus caeruleus, 148****Hemorrhage**

- cerebral, therapy of, 463
- intestinal
  - and digitalis, 358-363
- after surgery in children, 797

**Hemophilia, high-fat meals in, 951****Hemosiderosis, cardiac, pulmonary, and fibrosis, 140****Heparin**

- antiheparin activity of serum, 953
- assay in hemodialysis, 474
- compared with protamine and polybrene, 950
- clotting time, 475
- increased resistance, postoperative, 475
- lipolysis after, 55-62
- plasma levels of, 578-580
- lipemia clearing activity, 573-577
- in thrombosis, 476

**Hepatic veins, occlusion of, 146****Histamine**

- cardiovascular action of, 312
- and pulmonary circulation, 315

**Hydargin, affecting venous pressure in heart failure, 478****Hydralazine**

- in hypertension, 630
- preventing vascular lesions, 630

**Hydrogen ion concentration**, in arterial blood, 146

**Hypertension**, Hypotension. *See* Blood pressure

**Hypertrophy**, cardiac  
idiopathic, 629  
ventricular. *See* Ventricle

**Hypothermia**, in aortic commissurotomy, 469

## I

**Iliac artery occlusion**, 143

surgery in, 470

**Indicator dilution studies**

with cardiac catheterization, 627  
in congenital cardiac anomalies, 148  
in mitral regurgitation, 139, 468, 470  
double method in, 64-67  
T-1824 dye and blood flow through bronchial-  
pulmonary anastomoses, 390-397  
in valvular incompetence, 140  
in ventricular septal defects, small, 886

**Infancy**. *See* Children

**Infarction**

atrial, 331-337  
intestinal, 471  
myocardial  
coronary flow in, 150  
dehydrogenases in, 150, 151  
electrocardiography, 878  
enzymes in, 102-110, 626  
estrogen excretion after, agents affecting, 624  
fibrinolysis therapy, 624  
norepinephrine therapy, 624  
prognosis after first infarct, 881-885  
shock with, 325-330, 625  
syndrome after, 623  
vectorcardiography in, 862, 873-876  
in young adults, 625

**Injuries**, head, electrocardiography in, 853-859

**Inosithin**, as platelet substitute, 476

**Insufficiency**

aortic, 140  
left ventricular pressure in, 469  
cerebral arterial, 472  
mitral  
congenital, 339-349  
surgery in, 139  
myocardial. *See* Heart failure

**Insulin**

in atherosclerosis, 950  
and galactose transport into myocardium, 633

**Intestinal conditions**

angina, 471  
hemorrhage  
and digitalis, 358-363  
after surgery in children, 797  
*See also* Mesenteric arteries

**Iodine**, destroying cardiac conduction tissue, 308

**Ion transport by mitochondria**, 314

**Ischemic heart disease**, diagnosis of, 149

**Ivalon patch**, in pulmonary venous drainage  
anomalies, 911

## J

**Jet lesions**, in chordae tendineae rupture, 49, 51

**Jugular venous tracing**, 628

## K

**Kidney**. *See* Renal conditions

**Knotting of catheter**, intracardiac, 81-83

**Krypton**, radioactive, in detection of intracardiac  
shunts, 279-285

**Kyphoscoliosis**, cardiorespiratory failure in, 146

## L

**Lactic dehydrogenase**, in myocardial infarction,  
106, 150, 151

**Lanatoside-C**, affecting cardiac output, 793

**Lecithin**, in atherosclerosis, experimental, 949

**Levarterenol**. *See* Epinephrine

**Ligation**

coronary artery, effects similar to epinephrine  
doses, 625  
of ductus arteriosus, aneurysm after, 350-357  
superficial femoral vein, 471  
in varicosities, 957

**Linetol**, in atherosclerosis, coronary, 949

**Lipemia**

and fibrinolysis, 951  
and plasma heparin levels, 573-577  
postprandial, effects of, 55-62

**Lipids and lipoproteins**

abnormalities, and ballistocardiography, 154  
in aorta, intimal and medial, 949  
and coronary artery disease, 624  
diets lowering, 146  
and glutamic acid in atherosclerosis, 473  
medium-chain triglyceride, effects of, 473  
in Navajo Indian, 219-223  
response to epinephrine, adrenals affecting, 473

**Lipolysis**, heparin-induced, 55-62

**Lungs**. *See* Pulmonary conditions

## M

**Magnesium sulfate**, intravenous, effects of, 795

**Malic dehydrogenase**, in myocardial infarction, 108

**Marfan syndrome**

electrocardiogram in, 30-33  
roentgen findings in, 318

**Massage**, cardiac

closed chest, 593-595  
after coronary thrombosis, 151

**Mecamylamine**, intravenous, in hypertension, 631

**Meralluride**, renal disease affecting, 200-210

**Mesenteric arteries**

in hypertension, 308  
occlusive disease, 142, 471

**Metabolism**

aminoacaproic acid, and fibrinolysis, 953  
of angiotensin, 754-757  
of fatty acids, myocardial, 632

**Migraine**, and hypertension, 307

**Milk fat**, replaced by soybean oil, 474

**Mitochondria**, ion transport by, 314

#### **Mitral valve**

annuloplasty, 140

commissurotomy

postoperative results, 138

reoperation, 7-12

deformity in Marfan's syndrome, 30-33

insufficiency

congenital, 339-349

surgery in, 139

regurgitation. *See* Regurgitation, mitral

rupture of chordae tendineae, 42-53

stenosis. *See* Stenosis, mitral

ultrasonic cardiography in diseases, 628

valvuloplasty, quinidine after, 519-523

**Mobitz type A-V block**, 253-256

**Mongolism**, heart defects in, 148

**Mononucleosis**, infectious, epicarditis after, 257-260

**Morbus caeruleus**, 148

#### **Morphology**

quantitative, 645-647

unipolar QS, of free left ventricular wall, 836-845

#### **Mortality**

from coronary disease in Sweden, 625

mechanisms of death, 452-457

in surgery of anomalous pulmonary venous drainage, 916

#### **Murmurs**

in chordae tendineae rupture, 50

after surgery for mitral regurgitation, 819

systolic aortic, 141

**Muscular contraction**, 146

#### **Myocardium**

acetyl-strophanthidin affecting, 792

in anoxia, 313

Chagas myocarditis, vectorcardiogram in, 152

edema of, 793

encephalomyocarditis virus, 305

extraction of Rb<sup>m</sup> in rabbit, 312

fatty acid metabolism, 632

galactose transport into, 633

infarction. *See* Infarction, myocardial

injury from radiotherapy, 798

insufficiency. *See* Heart failure

lipemia affecting hemodynamics of, 55-62

membrane resistance of single cells, 794

pernicious myocarditis, chronic, 629

primary disease, 498-507

puerperal cardiomyopathy, 138

smoking affecting, 365-368

streptococci injected into, 629

**Myxoma**, intracardiac, 138, 798, 929-938

## **N**

**Navajo Indians**, lipids and lipoproteins in, 219-223

**Necrosis**, intestinal, and digitalis, 358-363

**Nephrectomy in hypertension**, 305, 307

**Nicotinic acid**, in hypercholesteremia, 146

**Nodules**, rheumatic, 316

**Nylidrin hydrochloride**, in occlusive arterial disease, 958

## **O**

**Obesity**, and cor pulmonale, 137

#### **Occlusion**

aorto-iliac, 143

cardinal vein, in pulmonary venous drainage anomalies, 913

carotid artery, 144

bedside diagnosis of, 958

surgery in, 796

collateral vessels in, 142, 471

coronary artery, electrocardiogram in, 625

cranial vena cava, 144

of hepatic veins, 146

of leg arteries, nylidrin hydrochloride in, 958

mesenteric vascular, 142, 471

peripheral artery, transaminases in, 143

surgery for, 470

treatment with EDTA, 948

**Oscillometric arterial circulatory norms**, 145

**Ostium primum and secundum defects**, electrocardiography in, 149

**Oubain**, ventricular tachycardia from, 309

**Oxidase**, in myocardial infarction, 109

**Oximetry**, 146

ear, measuring cardiac output, 627

#### **Oxygen**

anoxia. *See* Anoxia

arterial saturation in congenital cardiac anomalies, 148

effects on pulmonary artery pressure, 241-251

in morbus caeruleus, 148

myocardial consumption, and lipemia, 55-62

**Oxytocin**, cardiovascular effects of, 791

## **P**

**Pentaerythritol tetranitrate**, in angina pectoris, 626

**Perforation**, aortic valve, in endocarditis, 662-664

**Pericardiectomy**, 304

**Pericarditis**, constrictive, 305

surgery in, 304

#### **Peripheral Conditions**

arteries

conducting system, 312

embolism, 143

occlusion, transaminases in, 143

arteriovenous fistulas, 142

runoff, and cardiac output, 313

veins, reactivity in heart failure, 478

**Ph.458**, as hypotensive agent, 307

**Phagocytic reticuloendothelial cells**, in endocarditis, 629

**Phenindione**, failing to prevent clotting, 951

**Phlebothrombosis**, 952

**Phlebotomy**, in congenital heart disease, hazards of, 98

#### **Phonocardiography**

amplitude limitation in, 153

in infancy, 791

intracardiac, 152

jugular venous tracing, 628

in ventricular septal defects, small, 886

**Phosphohexose isomerase**, in myocardial infarction, 109

**Phospholipids**, synthesis in atheromata, 370-375

**Pituitary hormones**, affecting heart, 632

#### Plasma

heparin levels, 573-580

lipemia clearing activity, 573-577

volume, ganglionic blocking agents affecting, 305

#### Platelets

inosithin as substitute for, 476

serotonin in, 475

**Polybrene**, compared with heparin, 950

#### Polycythemia

blood volume in, 749-753

cardiac output in, 313

**Popliteal artery occlusion**, surgery in, 470

#### Potassium

cardiovascular action of, 312

hypokalemia

and exercise, 567-571

and malignant hypertension, 305

myocardial, acetyl-strophanthidin affecting, 792

transport by mitochondria, 314

**PreCORDIAL scanning**, in cardiac shunts, 21-28

#### Prednisone

affecting coagulation, 952

in rheumatic fever, 796

#### Pregnancy

cardiomyopathy, puerperal, 138

chlorothiazide in toxemia, 632

and congenital cardiopathies, 955

**Premature beats**, ventricular, 151, 793

#### Pressure

aortic, in closed-chest cardiac massage, 593-595

blood. *See* Blood pressure

carotid sinus, 766-789

coronary, 310

venous, in heart failure, 478

ventricular

in aortic insufficiency, 469

in arrhythmias, 314

and ventricular angiocardiology, 509-517

**Prognosis of myocardial infarction**, 881-885

**Protamine**, compared with heparin, 950

**Proteins**, of serum or edema fluid, in heart failure, 478

**Prothrombin deficiency**, vitamin K<sub>1</sub> in, 953

**Prothrombin time**, micromethod for, 476

#### Pulmonary conditions

artery

anastomoses to aorta, in Fallot's tetralogy, 525-533

in atrial septal defect, 733-739

banding, 16-20

fistula with coronary artery, 759

origin from right ventricle with pulmonary stenosis, 603-612

oxygen breathing affecting pressure, 241-251

right, origin from ascending aorta, 84-90

in ventricular septal defect, 740-748

circulation

and histamine, 315

serotonin affecting, 313

edema. *See* Edema, pulmonary

embolism, 146, 317

*See also* Embolism, pulmonary

emphysema, electrocardiogram in, 153

hemosiderosis, mitral-induced, 140

hypertension, atrial septal defect with, 466

valve

isolated incompetence of, 596-601

stenosis

in infants, 956

with origin of great vessels from right

ventricle, 602-612

roentgenology of, 317

venous anomalous drainage

at cardiac level, 77-80

extracardiac, surgery in, 907-919

vessels

bronchial anastomoses with, blood flow through, 390-397

origin from right ventricle, 399-412, 602-612

Warfarin, effects of, 147

**Pulsus alternans**, drug-induced, 792

**Purine derivatives**, metabolism in cat heart, 793

**Purkinje potential**, of free left ventricular wall, 836-845

**Pyelonephritis**, renal function in, 34-41

## Q

#### Quinidine

antifibrillatory effect of, 309

in atrial fibrillation, 791

and digoxin tolerance, 791

after mitral valvuloplasty, 519-523

syncope from, 309

## R

**Radiation therapy**, myocardial injury from, 798

**Radiology**. *See also* specific procedures

of left ventricular outflow tract stenosis, 823-835

in Marfan syndrome, 313

in pulmonary embolism, 317

in pulmonary valvular stenosis, 317

in pulmonary venous drainage anomalies, 909, 910

#### Raynaud's disease

digital circulation in, 144

with sclerodactylia, 13-15

**Raynaud's phenomena**, atrial myxoma with, 138

#### Regurgitation

aortic, angiocardigram in, 269-278

mitral

indicator dilution studies in, 139, 468, 470

double method of, 64-67

surgery in, 140, 813-822

#### Renal conditions

arterial disease, kidney function in, 34-41

artificial kidney, 474

blood flow, epinephrine affecting, 315

functional patterns in diseases, 34-41

glomerular filtration rate, reduced, 200-210

hypertension, 34-41, 146, 306, 632

nephrectomy in, 305, 307

renin content in, 305

renoprival, protection against, 795

ureteral catheterization in, 630

magnesium sulfate, intravenous, effects of, 795

pyelonephritis, 34-41

renin in kidney, 305, 315

**Renin in kidney**, 315

in hypertension, 305

**Renoprival hypertension**, renal protection against, 795

**Reoperation**, for mitral stenosis, 7-12

**Reserpine**, effect on heart rate, 310

**Respiratory failure**, in kyphoscoliosis, 146

#### **Resuscitation**

- after cardiac thrombosis, 151
- by closed-chest cardiac massage, 593-595
- physiopathology of, 452-457

#### **Reticuloendothelial cells**

- cholesterol removal from, 472
- phagocytic, in endocarditis, 629

#### **Rheumatic fever**

- comparison of therapies, 796
- declining severity of, 795
- nodule formation in, 316
- therapy and prevention of carditis, 316

**Roentgenology**. *See* Radiology

**Rubidium**, radioactive, myocardial extraction of, 312, 792

## S

**Safflower oil**, in hypercholesteremia, 146

**Scalenna anticus symptoms**, 144

**Scanning**, precordial, in cardiac shunts, 21-28

**Sclerodactylia**, Raynaud's disease with, 13-15

- pericardiectomy, 304
- in pericarditis, 304, 305
- in pulmonary drainage anomaly, 907-919
- saphenous ligation in varicosities, 957
- in thrombophlebitis, 957

- in ventricular septal defects, 466
- heart block prevention in, 467
- vertebral-basilar artery communications, anomalous, 137
- Sweden**, coronary disease mortality in, 625
- Sympathectomy**, lumbar, effects of, 957
- Sympatol**, affecting coronary pressure, 310
- Syncope**
  - in blood donors, 901-906
  - from quinidine, 309
- Syrosingopline**, in hypertension, 630
- Systolic murmurs**, aortic, 141
- T**
- T-1824 dye**, and blood flow through bronchial-pulmonary anastomoses, 390-397
- Tachycardia**
  - in digitalis therapy, 790
  - ventricular
    - control of, 925-928
    - in newborn, 311
    - oubain-induced, 309
- Testosterone propionate**, and estrogen excretion after myocardial infarction, 624
- Tetraethylammonium bromide**, affecting venous pressure in heart failure, 478
- Thrombin**, and heparin clotting time, 475
- Thromboangitis obliterans**, 165-167
- Thromboembolism**, 950-954
- Thrombolysis**, and fibrinolysin, 474
- Thrombophlebitis**
  - streptokinase-streptodornase in, 951
  - surgery in, 957
- Thromboplastin generation test**, measuring inosithin effectiveness, 476
- Thrombosis**
  - arterial, and anterior tibial syndrome, 143
  - cardiac, roentgenology of, 316
  - cerebral, therapy of, 458-462
  - coronary, cardiac arrest after, massage for, 151
  - factor VII and heparin in, 476
  - fibrinolysin in, 951
  - serum-induced, coagulation factors in, 477
  - ventricular, obliterating, 762-765
- Tibial syndrome**, anterior, 143
- Tomography**, in mitral stenosis, 177-187
- Toxemia of pregnancy**, chlorothiazide in, 632
- Transaminases**
  - in myocardial infarction, 102
  - in peripheral artery occlusion, 143
- Triglyceride**
  - medium-chain, effects of, 473
  - serum levels, in racial groups, 623
- Triiodothyronine**, and digitalis, 376-382
- Tumor**
  - aortic, hypertension from, 631
  - cardiac, roentgenology of, 316
  - myxoma, intracardiac, 138, 798, 929-938
- Turtle heart**, fine structure of, 307

- U**
- Ultrasonic cardiography**, 628
- V**
- Valvular disease**, 956-957
  - altitude affecting, 799
  - indicator dilution studies in incompetence, 139, 140
  - surgery for, anesthesia in, 797
- Valvulotomy**. *See* Commissurotomy
- Varicosities**, ligation in, 957
- Vasovagal fainting**, in blood donors, 901-906
- Vascular disease**, 957-958
  - See also* Blood vessels
- Vectorcardiography**, 297-303, 861-880
  - in Chagas myocarditis, 152
  - in children, 629
  - in cor pulmonale, 867, 876
  - criteria for diagnosis, 877-879
  - in myocardial disease, 862, 873-876
  - in ventricular hypertrophy, 153
    - left, 861, 867-873
    - right, 862, 867-873
- Vena cava occlusion**, cranial, 144
- Venous conditions**
  - drainage, pulmonary anomalous, 77-80, 907-919
  - pressure, in heart failure, 478
  - tracings, 628
- Ventricle**. *See also* Atrioventricular conditions
  - atrial flutter, response with, 920-924
  - depolarization, 312, 383-388
  - diastolic suction of, 792
  - fibrillation, 314
    - and anoxia, 634
  - left
    - angiocardiology of, 509-517
    - free wall, electrical endocardium for, 836-845
    - hypertrophy
      - electrocardiography, 877
      - and muscular infundibular stenosis, 833-834
      - vectorcardiography in, 153, 861, 867-873
    - obliterating mural thrombosis, 762-765
    - pressure
      - in aortic insufficiency, 469
      - in aortic stenosis, 189-194
      - stenosis of outflow tract, 823-835
    - premature beats, 151, 793
    - pressure, in arrhythmias, 314
  - right
    - hypertrophy
      - electrocardiography in, 878
      - vectorcardiography in, 862, 867-873
    - as origin of great vessels, 399-412, 603-612
    - septal defects, 147
      - common atrioventricular canal type, 685-695
      - electrocardiogram in, 225-239, 955
      - isolated, 148
      - pulmonary arterial tree in, 740-748
      - pulmonary artery banding in, 16-20
      - pulmonary artery pressure in, 241-251
      - small defects, 886-891
      - surgery in, 466, 467
    - single, 91-101
    - tachycardia
      - control of, 925-928
      - in newborn, 311
      - oubain-induced, 309

**Veratrine response**, in antiarrhythmic drugs, 634

**Vertebral artery**, anomalous communication to basilar artery, 137

**Vitamin K<sub>1</sub>**, in hypoprothrombinemia, 953

## W

**Wales**, blood pressure studies in, 306

**Warfarin sodium**, effects of, 147

**Water**, sodium in, effects of, 562-566

**Waterhouse-Friderichsen syndrome**, from dicumarol, 475

**Wolff-Parkinson-White syndrome**, 582-592

## Wounds

head, electrocardiography in, 853-859

vascular, healing of, 633
